## Legend

Notifiable Low Risk Dealing (NLRD) types are based on the Gene Technology Regulations 2001.

- The date in square brackets indicates the date of commencement of the applicable amended regulations.
  - (NLRDs assessed by IBCs after the commencement of a regulation amendment are assessed in accordance with the amended regulations.)
  - "PC1", "PC2" or "PC3" refers to the Physical Containment (PC) level required by the regulations.

(Prior to 1 Jul 2007 all NLRDs were required to be contained in PC2 facilities.) [1 Jul 2007] PC1 - (a), PC2 - (a) and (i)

• The dealing type is indicated by the reference to the clause in the relevant regulation schedule that describes the dealing.
