Legend

Notifiable Low Risk Dealing (NLRD) types are based on the *Gene Technology Regulations 2001*.

- The date in square brackets indicates the date of commencement of the applicable amended regulations.
(NLRDs assessed by IBCs after the commencement of a regulation amendment are assessed in accordance with the amended regulations.)
- "PC1", "PC2" or "PC3" refers to the Physical Containment (PC) level required by the regulations.
(Prior to 1 Jul 2007 all NLRDs were required to be contained in PC2 facilities.)

[1 Jul 2007] **PC1 - (a), PC2 - (a) and (i)**

- The dealing type is indicated by the reference to the clause in the relevant regulation schedule that describes the dealing.
