OGTR Online Services Portal Registration Guide

Registering for myGovID

Before registering for the OGTR Online Services Portal via myGovID, users need to have created a myGovID account.

Your myGovID is your digital identity and unique to you. Possessing a myGovID makes it easier to verify your identity and securely sign in to participating government online services.

To establish a myGovID you must specify the identity strength level. The **OGTR Online Services Portal** requires **Basic** identity strength, however 'Standard' identity strength myGovID accounts allow access to most other participating government online services.

For requirements to set up an account with basic identity strength, please see the setup instructions on the [myGovID website](#) or refer to our [myGovID Fact Sheet](#).
