Dear Sir/Madam,

Annual Report for DIR021/2002 for the year 25 July 2019 to 24 July 2020

I refer to the requirements of the above licence (*viz.* Condition No. 20), to provide the OGTR with an annual report by 90 days after the anniversary of issue of the licence, each year for the previous financial year.

This letter provides a consolidated report on activities under licence DIR021/2002 for annual reporting purposes over the period 25 July 2019 to 24 July 2020.

The following plantings were made of *Brassica napus* containing any of the approved events under DIR021/2002 in Australia during the stated period:

A little more than thirty-one (31.3) hectares in Victoria
Almost thirty-seven (36.7) hectares in South Australia
Eight (8) hectares in New South Wales
Ten (10) hectares in Western Australia

No adverse impacts, unintended effects, or new information relating to risks to human health and safety or the environment caused by the GMOs or material from the GMOs is available to report as a result of dealings with *B. napus* events under licence DIR021/2002.

Yours sincerely,

Regulatory Affairs Manager - Seeds - Australia & New Zealand

Dear Sir/Madam,

Annual Report for DIR108 for the year December 2018 to December 2019

I refer to the requirements of the above licence (*viz.* Condition No. 20), to provide the OGTR with an annual report by the end of September each year for the previous financial year.

Please note that from the period of December 2018 to December 2019, this licence was held by three (2) separated licence holders:

1. BASF Agricultural Solutions Australia Pty Ltd from 2 October 2018 to 18 April 2019
2. BASF Australia Ltd from 18 April 2019 to the end of the reporting period

This letter provides a consolidated report on activities under licence DIR108 for annual reporting purposes over the period December 2018 to December 2019.

No plantings were made of *Brassica napus* containing any of the approved events under DIR108 in Australia during the stated period:

No adverse impacts, unintended effects, or new information relating to risks to human health and safety or the environment caused by the GMOs or material from the GMOs is available to report as a result of dealings with *B. napus* events under licence DIR108.

Section 1 – Licence Holder Details

Name	Monsanto Australia Proprietary Limited
Address	Level 1, 8 Redfern Rd Hawthorn East VIC 3123
Telephone	(03)9248 6888
Contact email	[REDACTED]
Accreditation Number	ACR 034/2002

Scope of the Report

This report addresses the annual reporting conditions of the DIR020 commercial licence for the general release of Roundup Ready canola in Australia, issued to Monsanto Australia Proprietary Limited by the Office of the Gene Technology Regulator (OGTR).

This report details compliance with the general and specific conditions of sections 1 and 3 of the DIR020 licence as issued to Monsanto on the 19 December 2003 and as varied on the 15 April 2009, 28 September 2010 and 20 June 2013.

This report covers the period between the 1 July 2019 and 30 June 2020, including the 2020 canola growing season.

Section 2 – General Conditions

Duration of the Licence

DIR020 has not been cancelled, suspended or surrendered.

Holder of the Licence

Monsanto Australia Proprietary Limited (Monsanto) is the holder of the licence.

Project Supervisor

[REDACTED] is the project supervisor.

No dealings with GMOs except as authorized by this licence

Persons covered by the licence did not deal with GMOs except as expressly permitted by this licence.

Persons covered by this licence

All persons covered by this licence are all persons in Australia

Informing people of their obligations

Monsanto Australia Proprietary Limited informed all canola growers covered by the DIR020 licence of the obligations imposed on them as a result of the conditions of this licence. This was primarily achieved through the Monsanto accreditation program and information course, which includes information on regulatory obligations as well as crop management practices. This is also achieved through legal agreements with each trading entity who plants Roundup Ready canola. The Monsanto accreditation program requires all persons involved in the management responsibility for Roundup Ready canola crops to undergo training.

Licence holder to notify of circumstances that might affect suitability

During the reporting period, Monsanto Australia did not receive a relevant conviction occurring after the commencement of this licence; nor was there any revocation or suspension of a licence or permit held by Monsanto Australia Ltd under a law of the Australian Government, a state or a foreign country, being law relating to the health and safety of people or the environment; or any event or circumstance occurring after the commencement of the licence that would affect the capacity of Monsanto to meet the conditions of the DIR020 licence.

Monsanto acknowledges that it must provide information related to their ongoing suitability to hold a licence when requested to do so in writing by the regulator and must provide the information within a time frame stipulated by the regulator.

People dealing with the GMO must allow auditing and monitoring of the dealing

Monsanto acknowledges that if a person is authorized by this licence to deal with GMOs and a particular condition of this licence applies to the dealing by that person, the person must allow the Regulator to enter premises where the dealing is being undertaken for the purposes of auditing or monitoring the dealing.

Remaining an accredited organization

At all times, Monsanto Australia Proprietary Limited remained an accredited organization and complied with the conditions of the accreditation as set out in the OGTR guidelines for accreditation of organizations.

Additional Information given to the Regulator

During the reporting period, Monsanto did not become aware of additional information as to any risks to the health and safety of people, or to the environment, associated with the dealings authorized by the licence; or of any unintended effects of the dealings authorized by the licence.

Section 3 – Growing the GMO

3.1 GMOs covered by this Licence

The only dealings with GMOs under this licence were those with the GMO described in attachment B of the DIR020 licence

3.2 Permitted Dealings

During the period of this report, only dealings with the GMO authorized were permitted.

3.3 Commercial Volumes of Roundup Ready canola grown in each State and Territory in the 2020 growing season

STATE	Seed (kg)
VIC	153,080
NSW	124,147
WA	591,070
Total kg	868,297

3.4 Non-commercial Volumes of Roundup Ready canola grown in each State and Territory in the 2020 growing season

STATE	Seed (kg)
VIC	120
NSW	220
WA	1,200
QLD	200
Total kg	1,740

3.5 Annual Surveys

No other information on the progress of the release of the GMO, including annual surveys, was required to be submitted during this annual reporting period under specific condition 6(d) of DIR020.
